YOUR NUMBER ONE **SECURITY PROVIDER**

## CCTV

RESS Security offers an extensive selection of network, and specialty camera systems. These systems are ideal for any lighting condition, any environment and any application through detailed site analysis.

RESS's priority is to ensure our customers expectations are exceeded through cost effective and strategic planning. From our industry-leading IP and standard-definition fixed cameras to high-speed domes, integrated positioning systems, advanced thermal imaging cameras, ANPR and more, the choice is yours.

## KEY BENEFITS.

**RAPID RESPONSE**

**CUSTOMER REPORTS**

**ROUTINE CHECKS**

# REMOTE MONITORING

Having built long term successful relationships with several monitoring stations that are accredited to NSI ARC Gold standard, their state of the art monitoring stations provide a full range of intelligent, interactive monitoring packages tailored to give you our customer the best value from your CCTV investment.

They have experienced SIA operators trained to the highest standards that support the latest technology to give you full control and total peace of mind that your premises are being looked after 24/7. Commercial, industrial or residential we can tailor a package which will reduce false alarms and improve crime detection.

# PROVIDING A SAFE ENVIRONMENT.

YOUR NUMBER ONE **SECURITY PROVIDER**

## ACCESS CONTROL

RESS's Access Control enables you to control who has access to your building. All businesses, whether small, medium or large have assets that need to be protected from theft.

The access control systems installed by RESS enable you to have full control over who and when persons enter your building, thus providing a safe working environment for all of your staff whilst protecting your property from theft and malicious damage.

Locks and keys also allow you to secure your building, but when keys are lost or stolen, the inconvenience and expense of changing locks and re-issuing keys can be considerable. Keys may also be copied, creating even more security risks.

## KEY BENEFITS.

**MANAGE SITE  
SECURITY**

**MONITOR  
ACCESS**

**EASY  
INTERGRATION**

# INTRUDER ALARMS

RESS Security offers complete end to end solutions for any commercial security application. We supply, install and maintain Intruder systems that integrate video and access control for factories, large retail, financial and warehouse distribution environments.

At RESS we know that there is more to security than just designing a system. Understanding the business environment where the solution will be used is crucial to ensuring that the solution has all the capabilities to meet the needs of the user. Whether these requirements are generated by day-to-day conditions, business needs, or outside regulations or requirements, they must be considered when designing a system.

# GATED SECURITY

RESS provide automatic barriers, automatic bollards, automatic sliding gates, gate automation, cantilever gates, rising kerbs, turnstiles, bi- folding speed gates, manual barriers, height restrictors, speed ramps & access control to name a few.

We believe in supporting our customers with the best products at a competitive price, with a fast and friendly service that will offer our customers the right solution. We are happy to design and install a custom built gate to match your existing fence/surroundings or supply you with a range of automatic barriers in your corporate colours and branding.

# QUALITY & SUSTAINABILITY

RESS is committed to total customer satisfaction. The company strives for excellence while following the best practices in security, ensuring RESS creates solutions for clients that will enable them to meet their own business objectives.

The quality policy is the responsibility of every member of staff, starting with the managing director and senior management who make policy decisions.

All employees are charged with the responsibility of meeting customer requirements and continually improving quality in keeping with our objectives.

RESS recognises the importance of the environmental protection and is committed to operating its business responsibly and in compliance with all relevant legal requirements. It is the organisations declared policy to operate with and to maintain a good relationship with all of the regulatory bodies.
